The Iconn E2 Hypercamper® is expertly designed to reduce overall size while maximising functionality and internal space, ready to explore the varying terrains of the beach, the bush and everything in between.

With a striking charcoal exterior and full size door, wind out awning and additional storage compartments, the Iconn E2 is every bit as capable as our other models but now even more convenient and functional.

WWW.OVERLANDINGNORTHAMERICA.COM

A black pickup truck is parked in a grassy field, with an Iconn E2 camper attached to its bed. The camper is a box-style trailer with a white pop-top roof, a large awning extended over the back, and a kitchen area with a sink and stove. The truck has spare tires mounted on the back. In the foreground, a campfire is burning brightly, surrounded by large rocks. The background features a line of trees and a clear blue sky.

SET UP IN SECONDS

Just like our other models, the Iconn E2 has been designed for a quick, easy and stress-free setup so you can spend more time exploring, adventuring or just relaxing by the campfire. Set up in no time at all with a pop top roof, swing out kitchen and wind out awning which provides protection from the elements – so whether you're escaping the summer heat or sheltering from the rain, you can make the most of every single moment.

WWW.OVERLANDINGNORTHAMERICA.COM

Swing out kitchen with bench extension features a flush mounted 2-burner stove top with stainless steel 17L sink and incorporated mixer tap. Under sink cavity offers an additional 50L of storage. Secured on heavy duty latch-able slides.

This camper has been designed to provide the Australian camper market with an affordable and innovative camping solution that boasts the same high quality, attention to detail and great customer service that we deliver across every model within the Lifestyle Campers range.

This compact yet incredibly capable camper trailer is an embodiment of what a camper trailer should offer – INNOVATION, QUALITY, FUNCTION & VALUE FOR MONEY.

Overlanding North America is a Veteran Owned Small Business dedicated to family, exploring and the Pursuit of Adventure.

We don't like to compromise on comfort when we're on the trail, but with the type of places we like to go, weight and size matters. Our growing family had tried almost every type of camp set up and we were never quite satisfied on our adventures until we found lifestyle campers.

We felt a responsibility to our fellow adventure families to share these amazing trailers that can go off grid, get you where you want to go while keeping your family in safety and comfort for your journeys wherever they take you!
